Why the Name Wild and Sneaky Art® Festival?

People often ask why the name Wild and Sneaky Art®?

First of all its fun, secondly so often people's real talents (wildness) and uniqueness is somewhat caged because they are worried about what others think or whether what they do will be good enough and sometimes the only way for it to get out is to sneak out.

Our workshop facilitators (most of whom are based in the Nelson Tasman region) see people arrive thinking they're not creative or feeling too afraid to try something new and **leave with a wonderful piece of work, a remarkable experience, a big smile and new creative friends**. They describe seeing people free their creativity as the most satisfying feeling in the world.

WASA!® is a celebration of creativity in EVERYDAY LIFE. It's an acknowledgement that the most valuable currency in our society is the uniqueness of every individual. Nurturing this unique individuality and allowing it to unfold in ourselves and in others is central to our wellbeing and ability to flourish and prosper as individuals, races, nations and as a planet.
